

The new **Touring Car America** championship creates a unique and exclusive brand identity for our popular touring car classes - TCR, TC, TCA. After our inaugural season of TCR competition, we'll build off of the high excitement and close racing the class produced leveraging global homologated TCR cars. TCR competitors will enjoy an eight-round championship at premier circuits in America. TC and TCA return with a seven-round championship featuring a mixture of manufacturer-built and shop-built racecars. Like the past, TC & TCA feature the best racing in the country with action throughout the 40-min sprint race. Overall, Touring Car America is the most cost effective professional racing in North America with something for everyone.
